COVID-19 PREVENTATIVE MEASURES

YAS CONFERENCE
CENTRE
مركز ياس للمؤتمرات

OUR VENUE SPACES

Yas Island's master planning means there is pronounced distance between residential areas, major attractions and Yas Marina Circuit, as well as easy and direct access to highways linking Abu Dhabi to Dubai.

The island also has a coordinated approach to align with Abu Dhabi's stringent health and safety measures, making it the leading destination for the UFC's 'Fight Island' in addition to the regular automotive and health and fitness activities taking place at the circuit.

Yas Marina Circuit is self-contained within 141 hectares, with its own security systems and defined access points along with a tested and certified list of suppliers and partners, to create a secure 'zone' within Yas Island giving unprecedented levels of control over access to venues that are adaptable to your event requirements.

WHEN IT COMES TO VENUE SPACE, WE'VE GOT YOU COVERED.

- ▶ Standalone venue options with private access and no shared common areas, minimizing cross contamination risks
- ▶ Large venues that can operate at reduced capacity to allow for social distancing throughout your event
- ▶ Turnkey event management services, making it easier for you to host events without needing to manage multiple suppliers at the venue
- ▶ An extensive furniture catalogue, with everything you need for a stylish product launch to a creative meeting space for a brain storming session
- ▶ New menus designed with your safety in mind, with food and beverage options that are still bang on trend.
- ▶ Dedicated Event Delivery Specialists, trained in Covid-19 protocols to help plan your event and ensure safety for your guests

COVID-19 PREVENTATIVE MEASURES
